

## EASY PEASY INDIVIDUAL FORM 4 FILING

1. Select the suppressor you want, there are many flavors and many opinions on each. This is the fun part. Let us know what you are wanting and get a an AMAZING price from Horace Firearms. Now pay for it, NOT a fun part.
2. When we physically receive your silencer if we don't already have one in stock, we'll contact you and set up an appointment to get things rolling
3. Prior to your appointment you'll need to set up a ATF eForm account. This needs to be done here: <https://eforms.atf.gov/login> click on the "Register" button below the "Create an Eforms Account". Double check all your spelling and make sure everything is accurate, it has to match exactly when we submit the Form 4.
4. Note the username that is generated for you, it is generally the first initial of your first name and the first 5 digits of your last name followed by 5 random numbers. Example: jsmith12345. You will choose a 4-digit PIN when registering, make sure you remember that as well, we'll need that when filing.
5. All you need for our appointment to file your Form 4 is your drivers license with your current address on it, your eForm user name and PIN.
6. When you arrive for your appointment, we'll take a quick passport photo and digitally take your fingerprints. This only takes about 15-20 minutes.
7. We'll sit down and do some computer stuff online, not any more difficult than filling out a form 4473 when buying a firearm.
8. Then we hit submit and wait! Hours, days weeks... nobody knows! They don't have any rhyme or reason; it just takes as long as it takes.
9. When you are approved to have a muffler for your gun from the government you and Horace Firearms will receive an email with your digital approved form and tax stamp.
10. We will meet up one more time to have you fill out a 4473 form to officially transfer the suppressor out of our books and into your possession.

That's it!!

Hope it answered any questions you may have had.
